SUSTAINABILITY

We make our contribution towards the materials cycle

More and more recycled materials can be found in our range – 4 out of our 6 new bags are made with recycled materials. For us, it is one of the ways to achieve more sustainable cycles. The other is the development of bags that are high-quality and function, meaning that they are used for a long time. That reduces waste and lifts the mood! And our repair shop also helps to extend the life cycle of favourite bags.

This is how we want to reconcile social, environmental and economic aspects in everything we do. Discover now what exactly lies behind the HALFAR® sustainability initiative.

HUMANE, SOCIAL, COLOURFUL!

At HALFAR® we put diversity into practice, love creative solutions and have a heart for the climate and the environment. This not only makes working in the here and now more fulfilling, but is also the basis for a sustainable, liveable future for us all.

Signed and sealed

The diversity of our commitment is experienced every day at our workplace - and you can see it in the awards on the wall. Here is a small selection of our current prizes and memberships.

amfori 
Trade with purpose

Member of amfori, the leading global business association for open and sustainable trade. We improve the social performance of our supply chain via amfori BSCI. For more information visit www.amfori.org

Real inclusion: prosigno

The inclusion company prosigno belongs to the HALFAR® family. The screen printing shop, where people with and without disabilities work, operates with us in the same building. It belongs to Lebenshilfe Bielefeld, with whom we have been cooperating for over 20 years. The prosigno team finishes thousands of bags each year in the best printing quality. The short distances save resources, avoid emissions and ensure that the bags quickly reach the place where they needed.

Donations, grants and more

We are happy to support good ideas for a good cause or contribute some ourselves: from the chimney sweep's happiness tour, blood donations, DKMS typing campaigns to school and university cooperations. We are also involved in many other areas with projects, donations, scholarships ... If you are interested, just take a look at the online blog or our sustainability report.

Award-winning family friendliness

Whether it's childcare, nursing or simply special phases of life: HALFAR® has been an "Award-winning family friendly company" since 2016 and adapts to life with flexible working time models, for example. New awards were won again in 2023.

CLIMATE-AWARE OUT OF CONVICTION

As a company, we will always produce CO₂ – wherever possible, we avoid and reduce these emissions. And we compensate what we cannot avoid. With ClimatePartner since 2022 and this year for the very first time with the “Climate Partner Certified Company” label.

Saving energy

Whether photovoltaic system, wood pellet and eco-gas heating, insulation, green roof, LED lighting, green electricity: we pay attention to the economical use of energy and resources. We take a strategic approach through a process-controlled environmental management system and the ÖKOPROFIT® qualification programme.

Sparing resources

Our logistics centre has been built according to the latest aspects of sustainability. It produces energy itself. We also actively save waste when it comes to packaging: Since 2023, we have stopped using many avoidable plastic bags.

Read more about our measures here:

Buzzing and blooming

Biodiversity is a matter close to our hearts. Whether for plants, bees or insects in general: we have created areas for them ranging from green roofs to natural meadowland – 1500 m² in our logistics centre alone. Together with Insect Respect®, we are active partners for projects in the region.

Our warehouse: Sustainable and strong in service

- › sustainable, intelligent logistics with short distances
- › energy-saving and economical on resources in operation
- › future-proof, state-of-the-art and partially automated
- › good transport connections
- › on-time delivery, also internationally
- › more than 10,000 pallet spaces, more than 5 million products
- › planned delivery, in line with your delivery forecast
- › picking, packing and delivery as required
- › consignment warehouse and security warehouse possible

KNOW WHAT'S BEHIND IT AND GOES INTO IT

Good products are backed by good processes - and these are also important for climate and environmental protection. That's why we arrange regular certification:

From Europe, for Europe

We love the European idea. We strive to strengthen development in Europe, secure jobs and foster both solidarity and an intercultural exchange. For us, cooperating with companies within the European Union that share these values is important to us, as is our belief in fair working conditions.

Reliably recycled

We are always looking for alternatives that are even more sustainable, such as recycled materials like rPET. They help to save resources. We use the Global Recycled Standard (GRS) to which we have been certified since 2021.

*Halfar is GRS certified. Only the products which are covered by a valid transaction certificate are GRS certified.
certified by CU 1047624

Shaping international cooperation

Member of amfori, the leading global business association for open and sustainable trade. We improve the social performance of our supply chain via amfori BSCL. For more information visit www.amfori.org

Our bags are manufactured in various locations in Europe and Asia.

Wherever we work with people: We are fully committed to respecting human rights, maintaining occupational health and safety and implementing all social standards of the International Labour Organization (ILO).

We have been a member of the amfori Business Social Compliance Initiative since 2009. It is a programme with the objective of improving social standards in a global value creation chain.

Cotton with seal of approval

We use cotton that is certified in accordance with certain standards. The Standard 100 by OEKO-TEX® seal provides security for textiles that have been tested for harmful substances. The Fairtrade® Cotton seal distinguishes fairly grown and traded cotton. And last but not least, 100% of our organic cotton products are produced according to GOTS.

GOTS supply chains

The Global Organic Textile Standard (GOTS) is the world leader in the processing of textiles made from organically produced natural fibres. It defines all environmental requirements along the entire textile production chain as well as the social criteria for the companies. HALFAR® itself is also GOTS-audited as a business.

Certified by CU 1047624

MAKING GOOD EVEN BETTER

It is something we have supported since our foundation in 1986. We have developed more than 20,000 bag models since then. A wealth of experience and the best basis for our constant innovations in the bag market.

What actually makes a bag a sustainable bag? We believe that there is more than one answer to that question. It is important to us to manufacture durable, functional and attractive bags.

PROMOTIONAL GIFT
AWARD 2023

We have won prizes such as the Promotional Gift Award for many of our bags. They demonstrate that we are on the right path. Thank you!

Longlasting and good

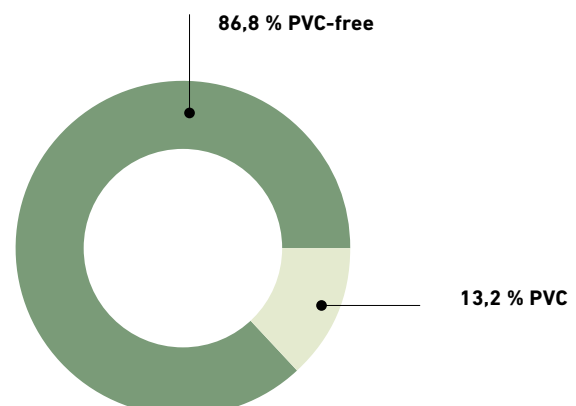

We pay attention to safe components and the professional finishing of our bags. Design quality is also important to us. Because what is well done and looks good will be used for longer and does less damage to the environment - that is sustainability as we understand it.

tested materials

More than 2/3 PVC-free...

...bags in the standard range. Our new products are even 100% PVC-free. And where we still use PVC, we only use clean materials, i.e. low in pollutants, in compliance with legal requirements and safe to use.

Does the BASKET always need an aluminium frame?

When our designer was out shopping with her BASKET shopper, she suddenly had an idea. Wouldn't it be much more practical without the rigid aluminium frame for some things - such as to be able to use it even more flexibly at events? And could it be even more sustainable? No sooner said than done. With the SOFTBASKET, we now have an alternative in our range that does not require an aluminium frame. Beautifully shaped, recycled and available in many colours.

Repair? We can.

HALFAR® is a bag maker. This means that we have been manufacturing our bags ourselves for over 30 years, some of them directly in Bielefeld in our own sewing shop. We have the experts in-house. Our repair service means that they are also here to help after the purchase of a bag. They can give advice, take care of spare parts, modify, repair or exchange. In this way we conserve resources, avoid waste, ensure greater sustainability and, above all, ensure that favourite bags remain favourite bags for a long time to come.

KNOW-HOW: THINK BAGS AHEAD

Fine functions, fabulous features

Bags with added value. Well planned and therefore added comfort and durability - whether thanks to shoulder pads, mobile phone compartments, trolley flap, extra handles or other little features.

Careful and faster decoration

We apply logos to bags – so quality and speed are important. With innovative decoration techniques such as HALFAR FAST LANE® we can achieve both and sustainability as well: thanks to printing in photo quality. With inks free of solvents and heavy metals, thanks to energy-efficient drying, and the use of electricity from photovoltaic and green electricity.

 PROMOTIONAL GIFT
AWARD 2020

What actually happens to truck tarpaulin that has served its time? At HALFAR®, we make bags from it, such as this customised courier backpacks.

Upcycling: ideas instead of waste

Some materials are simply too good to throw away. Patterned office curtains for example. Printed textile banners from the last trade fair. The legendary leather aeroplane seat. Truck tarpaulin.

With our upcycling concept you can make something better out of it: a unique collection of bags - provided, of course, that the materials can be sewn and are suitable for further use.

Read more about it at www.halfar.com

Encounters with air bags are (fortunately) rather a rare occurrence for normal people. But things look different if you are an air bag manufacturer. A Swedish company had an unusual marketing idea: Why not sew real bags from airbag material?

Special editions – 100 % your own

Design the bag of your dreams with us, tailor-made and unique. In this way we bring brands, products and messages to life in an individual way. Of course, we use your own material for upcycling whenever possible. By the way, you don't have to completely reinvent the bag even if it is a custom-made product - why not use existing bags from our range and adapt the details to match your ideas?

Our modular kit systems also offer you many different options.

FlapBag – the clever module bags

The FlapBag is your short-cut to a unique bag: because the module bag system provides you with a ready-made bag where you design the flap yourself. You can choose between different materials - including your own - and various colours and decoration options. You will also find different bag models in the kit, from which you can assemble your own FlapBag as you wish.

Find more about the FlapBags and the module bag system from page 149.

Lorrybag® – the ultimate choice

Our legendary truck tarpaulin bag offers you 1001 possibilities to design your own bag. Ideal for striking advertising messages. With large-scale, photorealistic digital printing or for the use of your own material. Thanks to the huge choice of colours, the possibilities are almost limitless.

You will find all the possibilities of the fascinating truck tarpaulin bag on pages 152.

ACCESSOIRES LORRYBAG ORIGINAL 1

Tuning for fantastic bags

Make the most out of your Lorrybag®. As with a car, you can also select special fittings for your tarpaulin bag – from a mobile phone pocket to an insert compartment. Several examples can be seen here. The HALFAR® Team will be delighted to show you more.

LB 021 MOBILE PHONE POCKET BUSINESS

Material: tarpaulin | With ideal dimensions, even for the largest of smartphones. Includes a strap for easy lifting out, and pen loops.

LB 022 FLAT FRONT POCKET

Material: tarpaulin | Creates space for newspapers, documents and for everything which you wish to quickly insert into the bag.

LB 023 SEPARATOR

Material: tarpaulin | Divides the main compartment into two compartments. Practical, to keep order in your mobile office.

LB 024 FLAT INSIDE COMPARTMENT

Material: tarpaulin | Folders, tickets, stamps: All these things can be fitted inside in this flat extra compartment.

DECORATIONS

DECORATIONS AT A GLANCE

We currently provide more than 12 decoration techniques, most of which we implement directly here in Bielefeld, and we can tell you a great deal about every one of them. In case you should have a question, please contact us. We are happy to advise you which logo works particularly well on which material, using which technique.

- Graphic files in vectorised .eps or .ai format
- taking care that all text is fully vectorised
- Colour information for digital printing: CMYK
- Colour information for screen print: PMS
- Photographic or bitmap images files should be in actual size with a minimum resolution of 300 dpi

DOMING

Like a dome for your logo!

Take your logo to another dimension! With domings, make it look lively and luxurious. The unique effect occurs when the logo is coated with an epoxy resin to create a transparent dome. Domings are flexible and extremely hard wearing. Excellent sun and water resistance ensures that their high quality aspect is retained over a long period of constant use.

5800162 Hangtag

Round doming
(Ø 13,4 mm)
Optional on bags with zippers

5800168 Hangtag

Square doming
(11,5x11,5 mm)
Optional on bags with zippers

TRANSFER PRINT

HALFAR FAST LANE®

The pioneering refinement of HALFAR®. Brilliant, pin-pointed printing in photo quality, with low energy consumption! Rapid drying, short production times! Long-lasting, elegant and one of a kind. Can be refined, in part, with spot varnish - refinement that inspires.

METAL EMBLEM

For a lasting impression.

You can immortalize your logos on special quality metal emblems. Choose from two versions:

either metal emblems with a stylishly lasered logo, or metal emblems with doming. On these the logo looks vividly colourful and very sculptured and the metal works like a frame.
