TAKE CARE / WASH WITH CARE

14 GREAT LAUNDRY TIPS

A collection of our best laundry tips before and after washing to maintain your garment's fit, extend its lifespan and reduce resource consumption.

General laundry tips

1. Avoid unnecessary washing

Wear your clothes one more time. Avoid unnecessary washing that wears out clothes and thus shortens their lifespan.

2. Air out the clothing

Feel free to air out your clothes instead of washing them, if they are not dirty, then they will last longer.

3. Check the care label in your clothing

The care label indicates how the clothes are best cared for, washed and dried to preserve their quality and lifespan.

4. Fill the washing machine

Fill the washing machine as much as possible and minimise the use of water, electricity and detergent.

Advice before washing

5. Sorting

Wash the clothes with similar colours to avoid bleeding of colours in the washing machine.

6. Turn inside out

Turn clothes inside out. Close zippers and buttons when washing or tumble drying to keep clothes longer.

7. Choose the right detergent

Choose eco-labelled detergent as it is economical in use and beneficial for both the clothing and the environment.

8. Dosage

Dose detergent correctly and according to water hardness. Too much washing powder does not make clothes cleaner, but leaves soap residue in clothes.

9. Avoid the following

Bleach, optical brighteners and fabric softener.

10. Lower washing temperature

Turn down the temperature when washing. The washing instructions in the clothes merely indicate a max. temperature.

After washing

11. Maintain shape

After washing, stretch the clothing into shape before drying it, and it will keep its shape better and shrink less, so you can use the clothes longer.

12. Use the clothesline

It requires less energy consumption and you avoid the clothes shrinking after a round in the dryer.

13. Ironing

Always follow the ironing symbols in the care label located on the inside of your clothing.

14. Clean the washing machine

Clean the washing machine and rubber strips after each wash, remove old soap from the soap drawer and run a hot wash monthly to avoid bad odours.

Scan and read more about how to preserve the quality of the clothes

PRODUCT / CERTIFICATIONS

The EU Ecolabel is your guarantee that clothing bearing the EU Ecolabel impacts the environment as little as possible, and ensures that the clothing does not contain pesticide residues and other environmentally harmful chemicals, that eco-friendly dyes have been used and that waste water is handled responsibly.

The product has been developed to meet the hygiene requirements for food production as defined in HACCP - certified by Hohenstein.

ISO 15797 is an international standard for evaluating a product's suitability for industrial washing. The tests are carried out in close cooperation with external experts.

OEKO-TEX STANDARD 100, Annex 4, product class 2
OEKO-TEX® ensures that the product complies with the limit values for the content of substances harmful to health. OEKO-TEX® is one of the world's leading labels for textile products that have been tested for substances harmful to health and the environment. Clothing marked with OEKO-TEX STANDARD 100 is subject to requirements regarding pH value and the content of, for example, pesticides and heavy metals in the clothing.

OEKO-TEX STANDARD 100, Annex 6, product class 1
ID® has a large selection of OEKO-TEX STANDARD 100 certified products as well as OEKO-TEX STANDARD 100, annex 6, product class 1, which imposes even stricter requirements on the clothing's content of substances harmful to health and the environment.

OEKO-TEX ORGANIC COTTON Annex 6, product class 1
covers products made with 100% organic cotton and serves as your guarantee for traceability from farm to product, as well as ensuring that the product is GMO-free and pesticide-free.

OEKO-TEX ORGANIC COTTON BLENDED Annex 6, product class 1
covers products with at least 70% organic cotton and serves as your guarantee for traceability from farm to product, as well as ensuring that the product is GMO-free and pesticide-free.

OEKO-TEX STANDARD 100 Recycled, Annex 4, Product Class 2
The OEKO-TEX® Recycled certificate covers products which contain more than 20% recycled fibre material. The material is subjected to special test procedures in connection with the material recycling process. OEKO-TEX® is your guarantee that the clothing does not contain any substances which are harmful to human health.

OEKO-TEX STANDARD 100 Recycled, Annex 6, Product Class 1
The OEKO-TEX® Recycled certificate covers products which contain more than 20% recycled fibre material. The material is subjected to special test procedures in connection with the material recycling process. OEKO-TEX® is your guarantee that the clothing does not contain any substances which are harmful to human health. Furthermore, Annex 6, Product Class 1 also places additional, more stringent requirements on the product.

COMPANY CERTIFICATIONS

STeP

23001130
DTI

OEKO-TEX® STeP company certification

Confirms our responsibility as a company for both people and the environment. It ensures high-quality clothing with a long lifespan, produced with a focus on working conditions and responsibility.

MEMBERSHIPS & INITIATIVES

Proud Member of Better Cotton

Works for responsible cotton production benefiting people and the environment. Better Cotton is purchased via Mass Balance and cannot be physically traced, but the system enables broader adoption of responsible methods.

Move Forward with Confidence

Bureau Veritas

Is today one of the world's largest companies in inspection, classification, consulting, and certification. They deliver high-quality services to help customers meet the growing challenges of quality, safety, environmental protection, and social responsibility.

Trade with purpose
ID: 208-000048-000

amfori BSCI

A common code for responsible sourcing and production outside the EU. It ensures decent working conditions, including prohibition of child and forced labour, with a focus on environment, safety, and fair terms.

International ACCORD

The Accord on Fire and Building Safety in Bangladesh (the Accord), from November 1, 2023, is a three-year independent, legally binding agreement between manufacturers, retailers, and trade unions in the textile industry aimed at building a safe and healthy Ready Made Garment (RmG) industry in Bangladesh.

WE SUPPORT

UN Global Compact

At ID®, we strive to act responsibly and contribute to sustainable development. Therefore, we are proud to be members of the UN Global Compact, which forms the basis for our work with internationally recognized conventions on human rights, labor standards, environment, and anti-corruption.

PRODUCT / FEATURES

	Close-fitting model	WATER REPELLENT	Water repellent product made of waterproof or water resistant material, without waterproof seams
	Tight fitting model	WATERPROOF	Waterproof product with waterproof seams. The waterproof level is measured as the water column pressure in millimetres, and expresses how much water pressure a fabric can withstand before water presses through it
	Regular model	8000 WATERPROOF	8,000 mm water column pressure
	Regular model	10,000 WATERPROOF	10,000 mm water column pressure
	Loose fitting model	MEMBRANE 3-LAYERS	Breathable, wind and water resistant three-layer membrane
	The cut away collar is suitable for ties and is also considered as one of the more formal collar types	TAPED SEAMS	Taped seams for maximum protection against wind and rain
	The Kent collar is distinguished by a classic shape that provides a more modern look	QUICK DRY™	Moisture transmitting, breathable and quick-drying material
	The regular collar tips are more widely spread making it perfect for wider tie knots	QUICK DRY™	Permanent moisture transmitting, breathable and quick-drying material
	The button-down flip is with buttons, a smart business or leisure look	YKK ZIPPERS	Quality zipper from YKK
	Easy Care-finish require minimal ironing. To achieve the best result, the shirt should be ironed after washing before it is completely dry. The shirts can be tumble-dried at low heat and afterwards placed on a hanger	ZIPPER WATERPROOF	Waterproof zipper
	Non Iron-finish require minimal or no ironing. After washing and possibly tumble drying at low heat, hang the shirt to naturally dry on the hanger and it is ready for use	ID TECH	Breathable, wind and water resistant and moisture transmitting
	Breathability is measured in MVP (Moisture Vapour Permeability). MVP specifies how much moisture in grams can be transported out per square metre per 24 hours		TENCEL™ Lyocell fibres give fabrics a natural softness, making them feel pleasant against the skin. Effective moisture control ensures TENCEL™ Lyocell fibres support a natural dry feeling. TENCEL™ is a trademark of Lenzing AG.
	3000 MVP	BIONIC FINISH® ECO	BIONIC-FINISH® ECO is a fluorine-free water-repellent surface (DWR). The surface is made with dendrimer technology which is based on a non-halogenated, APEO-free and fluorine-free formula. This means that the final product is more efficient and resistant to water.
	4000 MVP		Recycled fibre is fibre produced from recycled waste materials. The waste materials are collected, sorted, and broken down to a stage where they can be reused as fibre. The fibres consist of 100% recycled fibres or are blended with new fibres, which are then spun into yarns that are either woven or knitted into new textiles. The reuse of fibres helps to minimise the need to produce new raw materials.
	5000 MVP		
	Windproof material

QUALITY WEAR FOR A 1000 JOBS

Quality clothing brings people together every day across thousands of professions, regardless of title, role or function. The clothing is a symbol of the community that arises when we are dressed alike.
